DERMA[®]
LOTANA

The **Derma Lotana** product range was especially developed to meet the needs of sensitive skin of all types.

All formulations were dermatologically tested and found to be **hypoallergenic** and **suitable for sensitive skin**. All products are focused on maintaining the health of the skin and nurturing its appearance.

Thanks to the modularity of the multi-purpose **Derma Lotana** products, it is easy to compile **personal treatment sets** that may perfectly match **your individual skin needs**.

The full size **retail product** you have purchased is located in the **sealed**, lower cylinder. In the "open", upper cylinder you may find the **same** product in **trial size**, which is given to you to demonstrate our **return policy**. We recommend that you use it **BEFORE** opening the seal.

4-5 additional testers have been chosen especially to let you experience a fuller treatment sequence of the **Derma Lotana** care line.

*Product information may be found in these booklets. **Extensive experience** in derma cosmetics (supported by **intuition**) have guided us in selecting your testers.*

If you wish to share your impressions from using these testers or, send us any other comments / questions you may e-mail us:

DERMA®
LOTANA

GENTLE CLEANSING MOUSSE

FOR SENSITIVE SKIN

CODE
DL270
150ml

In spite of being soft as a feather it effectively improves the hygiene of the skin.

This velvety face & body cleansing foam has been especially formulated for sensitive "reactive" skin types. For those who tend to "flush" in response to various environmental "triggers". The foam is excellent for the very young (3 months old or more) as well as for fragile adult skin suffering from Rosacea.

The sulfate free, vegetable based cleansing components are produced from corn, olive and coconut prevent a sensation of dryness after rinse off. Papyrus root extract, rich in moisturizing minerals and softening starch promotes the calming effect of the mousse.

A targeted molecule combining the amino acid Glycine with Undecylenic acid supports the skin's hygienic condition while serving as part of the delicate preservative system of the foam.

The mechanical foam pump is environment friendly free from any gas propellants! When using this airy foam the skin is exposed to a much lower detergent concentration than any liquid soap, and it is easily washed off the skin leaving it calm and clean.

MILD FACIAL FOAMING GEL FOR SENSITIVE SKIN

CODE
DL361
125 ml

"Comfortably relaxing" describes best the feeling during the use of this liquid soap ... as well as after rinsing it off!

The sulfate free formulation is designated for daily cleansing of delicate skin of all types. A gentle massage over moist skin will form a light lather that does not dry the skin!

Based on cleansing ingredients derived from corn and coconut oil it is a skin friendly sustainable formula, recommended for daily use of all skin types - in all areas of the face or body.

The carefully chosen components including red Seaweed and flower extracts of Chamomile and Eyebright provide a sensation of comfort during use. It effectively removes makeup, dirt and oily residues while leaving the skin clean smooth and fresh.

The intensity of this modular scrub may be adapted to any individual skin sensitivity

A concentrated paste that serves as peeling paste that allows the user to perform an effective and thorough cleansing of the skin. Peeling will also be used to clean the daily evening and just a minute or two to activate it. The salt crystals, used as the abrasive agent in the preparation, dissolve quickly as a result of wetting during cleaning. With their help, deep cleansing of the milk residues accumulated in the skin pores - which are the main cause of the problem of the fat skin - can be done. Peeling contributes to cleansing the skin and renewing it only as an emulsion (without greening) due to its osmotic effect on the skin. Peeling is concentrated, economical and easy to use near the sink. A small amount will be enough to get maximum benefit with just water, leaving the skin smooth and clean. The formula is rich in oils and essences that maintain skin softness and elasticity and is based on friendly and non-sulfate cleaning agents.

MOISTURISING SKIN BALANCER

FOR SENSITIVE OILY/
PROBLEM AND COMBINATION SKIN

CODE
DL178
75 ml

*The ideal daily moisturizer for
minimizing and preventing discomfort*

This moisturizer has been especially designed for combination skin that used to be oily / problem skin during adolescence. Once they enter their third decade their skin becomes sensitive and prone to develop redness and scales especially in the T Zone area (around the nasal folds chin, forehead, etc.). The skin friendly formula which is suitable for everyday use (day or evening) has a delicate and refreshing texture.

It provides a calming effect on the skin while it quenches it with moisturizing ingredients derived from a wealth of Mediterranean herbs: Aloe Vera, Fennel, Hops, Melissa, Chamomile, St. John's worth and Mistletoe; known for their soothing properties. The light non oily texture is easily absorbed by the skin and leaving it feeling pleasantly comfortable and without any oily shine.

Oil components in the formula contain essential unsaturated fatty acids (vitamin F) which are protected by from oxidation by vitamin E and the colorless Carotenoids extracted from saline water microalgae called Dunaliella Salina.

LOTANA

INTENSIVE HYDRATION CREAM

FOR SENSITIVE NORMAL TO DRY SKIN

CODE
DL081
75 ml

Dry dehydrated skin texture can be improved by quenching it with moisture to obtain a smoother appearance while enhancing the skin's sensation of comfort.

This daily moisturizer offers a fountain of polysaccharides that increases the moisture retention capacity of the skin.

It balances the moisture level even after a single application, overcoming temporary exposure to drying environmental factors. However the cumulative effect following repetitive use over several weeks provides more remarkable results.

Hyaluronic Acid and 3 Xylitol derivatives provide deep hydration while high quality Phyto-Sterols Jojoba seed oil, Shea butter, and Squalene slow down evaporation from the skin by strengthening the epidermal lipid barrier. Thus skin elasticity and softness are increased.

A Peptide sequence (Matrixyl 3000) improves skin appearance by minimizing visibility of fine lines and gradually improving skin firmness.

SOOTHING ALOE VERA GEL MASK

FOR ALL SKIN TYPES

CODE
DL042
125 ml

Due to the premium quality of the Aloe Vera leaf extract it is not just another Aloe Vera Gel,,, it provides the expected results!

The carefully peeled gel from within the leaves of Aloe Vera is purified by meticulous processing to obtain a tasteless, alkaloid free juice. This pure juice is further extract by freeze drying technology into a premium quality powder with very high polysaccharide concentration. The care advantages the mask are derived from the high quality of the Aloe Vera extract, offering excellent skin tolerance even for sensitive skin conditions.

Recommended for easing discomfort, relieving skin redness of various reasons and effectively calming irritated skin when used as a moist mask for 10 minutes or more.

What is the mask best for?

- Reducing sudden widespread or localized redness (such as over exposure to the sun, stinging insect bites, etc.).
- Chronic or persistent redness as in Rosacea etc.
- Temporary "flushing" due to exposure to heat (hot water in the shower); emotional reasons;
- As a treatment mask for oily or combination skin characterized by redness in the problematic areas.

IMPROVING SKINS HYGIENIC CONDITIONS

CODE
DL102
50 ml

This delicate emulsion is the busiest generator of enthusiastic customers feedback.

A concentrated, yet gentle lotion for local application, designed to protect the barrier function of the skin by improving hygienic conditions.

Suitable for soothing irritated skin on local or larger area application. The formula is enriched with traditional herbal components and resins (among them: Myrrh, Frankincense, Mediterranean Lenticus gum and beehive Propolis), which have been used during generations for similar skin protective purposes.

When used, it is rapidly absorbed by the skin leaving a long lasting sensation of comfort and protection.

Its balanced composition combines ingredients known for their soothing effect on irritated red skin such as: Marigold (Calendula) flower extract, Tapioca starch, Aloe Vera juice and Oatmeal with Potassium and Magnesium salts. High quality emollient oil supplements such Jojoba seed wax, Squalene and Phyto-Sterols, prevent over drying of the skin.

DERMA[®]
LOTANA

PURIFYING MUD MASK

FOR OILY/PROBLEM SKIN

CODE
DL383
70 ml

A fast drying treatment mask designed to purify the skin and improve its appearance upon removal!

The mask formulation is based on clay powders (including the mineral rich black mud from the Dead Sea). Due to their excellent adhesion clays are known for oil absorbency which assists in cleansing waste from pores of oily/problem skin. Targeted components of the mask are focused on improving surface hygienic conditions. These include Propolis and traditional tree resin extracts (Myrrh, Frankincense, and Lenticus gum), known for generations as a purifying properties.

The astringent effect of the silica rich Polygonum extract exerts a smoothing effect on the skins surface which is felt once the mask is rinsed off. A balanced addition of Jojoba seed wax prevents an over-drying sensation after removing this mask when a clean and smooth skin will be revealed with an elegant matte appearance.

30 ml

Dead cell removal from the skins surface refreshes the skins appearance and enhances its renewal

This concentrated oil gel effectively removes dry dead cells from the skins surface. The unique method by which it exfoliates the skin makes it suitable even for fragile and sensitive skin! It is based on an initial intensive hydrating achieved by a high concentration of Hyaluronic Acid which saturates the dead cell layer with moisture. Once these cells absorb the moisture and become plump and soft they will spontaneously fall off with the smoothing fingertip massage.

Gentle, yet thorough exfoliation will be obtained without any acids (AHA) or abrasive particles! Leaving the skin perfectly smooth and revitalized.

This type of exfoliation is best for:

- Dry dehydrated or damaged skin;
- Sensitive combination skin with a tendency to accumulate layers of dead cells (scales) around the nasal folds and rest of the T Zone;
- Vulnerable fragile skin that does not tolerate AHAs or abrasives.

*How pleasant it is to open the morning
with the delicate, firming touch!*

The eye contouring gel has especially been formulated for use in the most delicate area of the facial. The eye contour.

It combines moisturizing Hyaluronic acid with premium extract of calming Chamomile flowers; Tincture of firming Witch Hazel (Hamamelis) bark with hydrating Cucumber fruit extract to optimize results while contributing to sensation of comfort following application.

The formula is further enriched with ingredients such as Bisabolol and Allantoin, known for their soothing effect on the skin.

Oil soluble emollient supplements have been added to the formula to enhance skin elasticity and prevent dryness. These components that are more vulnerable to oxidation are protected from by vitamin E and A derivatives to minimize free radical damage.

The gel is suitable for all skin types for use in the morning / evening, on its own or under makeup.

LOTANA

BIO-PEPTIDE EMULSION

FOR ALL SKIN TYPES

CODE
DL188
30 ml

Only a smart formula can smooth fine lines and minimize, at the same time, under-eye puffiness!

This exclusive skin firming emulsion is designed to improve skin texture and reduce the appearance of fine lines - especially in the eye and lips contour area. Enriched with functional protein sequences (peptides) as MATRIXYL 3000 and HEXAPEPTIDE 8 that have a proven activity in reducing the appearance of wrinkles and exceptionally smoothing the skin.

Premium seed oils enrich the skin's lipid layer and contribute to improving its elasticity.

A mineral complex of magnesium and potassium helps soothe the skin and increase the sensation of comfort following application.

The extract of Albizia Julibrissin ("Tree of Happiness") has a mild lifting effect which combines well with the vectorised amino acid Proline for a cumulative smoothing effect. .

Vitamin E and vitamin C are used as antioxidants to minimize free radical damages.
