

## THEINTERIORDESIGN.IT GREETES A NEW FAMILY MEMBER: **SPAZIO TID** IS THE STAGE FOR DESIGN, ART, INNOVATION AND CREATIVITY

**Baranzate 2015** – Just outside Milan, at via Pordoi 8 in **Baranzate**, **Theinteriodesign.it** unveils the brand new **Spazio TID**, a captivating place caught in between industrial and *street* style where to discover innovative design products and art pieces by selected new national and international talents of the field.

**Spazio TID** covers over 1.000 square meters formerly belonging to a local printing firm, with many old plate printers scattered around the space to create a continuum between past and present. The location itself has a specific purpose: creating new venues near the former Expo area and the city's main exhibition centre to make art and design bring suburban districts to a new life, beyond the usual central areas.

Following the opening of the first atelier located at Via Medardo Rosso in Milan, the team of **Theinteriodesign.it** has been always believing in the potential of the new Spazio, which is going to become an ever-changing creative space as well as the stage for artistic and cultural meeting and exhibits, thanks to the abundant scale of the place that further enriches Spazio.

Spazio TID already hosts many artworks and design pieces of furniture showcased in a very dynamic and creative way, with ad hoc setups aimed at giving the public a new sense of design.
