## **7 Mindset Secrets For True Love**

If you ever feel stuck on your journey to find your true love, return back to these seven (7) principles and see which one you are not applying in your life. Just reading these every day will help you align your mind with this higher truth – that you are meant to find great love in this life. The love is already yours!

### **1. You are the Source**

Your mind is the source of your external results. If you accept that you create your experiences, you have the power to change your life.

### **2. You are meant to have love**

It is your right and duty to have love. No one is fated to be alone.

### **3. You have a higher purpose**

You need to know your higher purpose so you can find a partner who fits your true self-expression. To find true love, you must know your true self.

#### 4. **Take action**

Through your vision you create, through action you receive. Even if you don't know the right action to take, take any action and you will be redirected and guided by your higher self.

#### 5. **Align your mind and actions**

Your thoughts and action must align with the higher purpose. If your thoughts and actions are filled with certainty you get what you imagine.

#### 6. **You are unlimited**

You already have everything you need – there is nothing to fix or heal – you are unlimited possibility in human form. Your personal history doesn't limit your future.

#### 7. **The universal source within is friendly to you**

The universe is more willing to give you love than you are willing to receive it. So instead of grasping for love, look within to see where you are holding yourself back from receiving love.

## **About Creative Love Founders, Debi & Robert**

**ROBERT MALDONADO, Ph.D.** Robert Maldonado is co-founder and Chief Creative Officer, CCO, of Creative Mind Media, a personal development company that transforms people's lives through live trainings and multimedia online courses.

Robert is recognized internationally as a human behavior and relationship expert. He earned a Ph.D. in Counseling Psychology from the University of Wisconsin and an M.A. in Clinical Psychology from the University of Texas.
