These digital files may be used by hobbyists and professional crafters to create their own handmade items, such as greeting cards, gift tags, paper or digital scrapbooks, candy wrappers or stationery.

The items that the customer receives must be in flattened (JPG) or printed form, and they should not be able to be used as a template. Please contact me if you wish to use my designs for a mass-produced product (more than 100 items total using any 1 design/product) because that would require the purchase of a separate commercial license.
