## Wynn Macau Resort Hotel & Casino Project - Macau, China

Tivoli provided thru its parent company, Neo Neon, a blue Flexi-LED linear UL wet listed product. The application has the Flexi-LED hidden under a reveal and projecting light down to create a sharp line rippling effect, due to the combination of lighting and water movement. The location and direction of the lighting provides a mesmerizing, almost hypnotic effect that creates an ease of mind.

The illumination levels were low and discrete utilizing 1 watt per foot of energy. The power supplies were mounted remotely and completely dimmable.

Wynn Macau Resort Hotel & Casino Project - Macau, China

### Fastube - Stair Case Lighting

Incandescent Fastube was chosen because of its broad spectrum, low glare, low image distribution. The product was produced to length at the Southern California factory using 40,000 life, T 1-1/4 lamps with high quality silver mag wire. The tygon tube was chosen due to its flexibility to fit the space and its coil-up ability cut freight cost.

UL listed - the power supplies are mounted remotely.

## Wynn Macau Resort Hotel & Casino Project - Macau, China

In this application Tivoli was asked to design and provide a low wattage (3 Watts per lamp) Tivolight Lamp which contained warm white randomly spaced cluster of LEDs mounted around a centred stem, inclosed in a G19 clear globe.

The 2400K LEDs were wired in series and operated at 60% of their design current, providing exceptional life.

Specs:

- E27 base
- 230 Volt

Tivoli designed & provided a modified Tivolight which operates at 230 volts. This multi-LED "sparkle lamp" is a casino favorite

## Encore Resort Hotel & Casino Project - Las Vegas, Nevada

### Switch Steak House at Encore Las Vegas

Illumiline was chosen to light the interior wine racks cases with 2800 kelvin LED's. The product used 2.1 watt per foot in a UL wet listed tubing, mounted vertically to deliver lighting across the wine labels. The 2" on center LED spacing with tubes mounted in all rear facing corners provided just the right amount of light to give even illumination.

### Valet Parking Encore - Las Vegas

Tivoli provided Polish Gold extruded aluminum "Architectoral Channel" with 6 inch on center E26 medium base sockets at the Valet Parking Entrance to the casino. The product design and wire way listing allow for multiple pairs of conductors to feed thru for long product run lengths. The lamp is a G16 incandescent "Tivolite" with a 25,000 hour rated life.

## ABOUT TIVOLI

Tivoli is the original innovator with over 40 years experience in incandescent & LED based linear lighting products.

The complete line of Tivoli Venue Lighting solutions are designed for aesthetic quality, performance, functionality and durability

Our venue systems are designed for functionality, safety and low maintenance in compliance with the NFPA 101 Life Safety Code. Our Platinum Series features the newest standard in theater lighting offering a full replaceable LED lighting system and is incorporated into our complete line of LED Guide, Step, Wall and Seat Lighting products.

Using our expertise with color mixing LEDs for theater lighting we have created incandescent color equivalents and even improvement to incandescent using LED color mixes.

As the market leader in emerging LED linear lighting, we offer a complete line of architectural, signage and auditorium linear LED based lighting systems. Our products are flexible, adaptable energy-saving LED-based linear lighting products for broad architectural / commercial applications, both indoor and out.

**- Lighting is our business, Color is our concern.**
