The Ring of Change

Candice
from Explicite

Please, give the Ring of Change to me! I want to be the girl this time. I love it when you bend me over and penetrate me from behind. Please, let me decide this time!

I am starting to like it now. That means I have lost, and I know it. The man I was is dying and a woman is taking his place. And all of this because I entered the wrong bar in Rio. They tell me they will send me to the hospital tomorrow. The final surgery.

Scream

«I realize that there has to be some training,» Wendy said. «If they are to serve as concubines for the high and mighty, they need to know how to behave. But I hate the screaming. Do you really have to condition them here, in this house?»

«Yes,» said Belinda and looked down at the monthly report. «My reputation and the brand of this company depends on me delivering a top quality product, and for that the last drop of male pride has to go. I need to be sure. Jeremy here is clearly a screamer.»

«So what we hear is the death throes of his masculinity?» Wendy asked.

«You could say that. It is only humane that we let them mourn the loss of their old lives. Before this night his over, I suspect her crying will have a more pleasant tone to it.»

Wendy snickered: «My! You are an evil bitch!»

I refuse to be ashamed anymore. I love what she did to me now. And I thank the goddess for the potion that made this change possible.

Yeah, I know. Real men are not supposed to enjoy being swept off their feet and having their brains fucked out. But I am not much of a man anymore, am I?

You know what I think? I think there are many men out there who dream of the same thing, and many women who would like to bend me over and possess a girl like me. Nature is plentiful, and so am I!

Nelly in Pink

My brother makes fun of me. He says I was crazy to pay for that body swap. He tells me that the donor is now using my body to spread the seed of the family across the globe, which -- according to him -- is what I should be doing.

Why would a man want a pussy, my brother asks me. He feels uncomfortable about the whole idea, finding the folds and the love nob strange and alien. I am a girl. Of course I would like a pussy. She is my flower, and one day soon i will allow someone special to visit it.

Please, honey! I didn't mean what I said about you being a blonde Barbie. I think you are a great intellect. I mean, you know everything there is to know about peace and war and politics and stuff. Could you please ask that fairy to change me back? I have a lecture at the university at 3 p.m. Honey? Listen! I promise I will never seduce a student again! Don't go! Please!

Shit....

«Don't look at us that way! If you didn't mean for us to borrow your dildos, you shouldn't have left the Ring of Change on the table! Seriously, Fannie!»

ZAGROS' TALE

I went to Tokyo to see if I could find a rare copy of The Emperor's Bride, a manga story about a young Japanese warrior who is captured by a witch serving an evil emperor.

In the comic book the witch understands that the young samurai has the potential of becoming the perfect samurai, and that he will eventually defeat the emperor and all that serves him. She therefore calls upon the forest spirits to turn the warrior into a girl. And as a girl the warrior is forced to marry the emperor, which is considered the ultimate humiliation, ensuring the reign of the tyrant.

But the girl had not forgotten her skills, and she decapitated the despot with his own sword, becoming - in turn - the new ruler of Japan when marrying the son of the previous benevolent emperor.

I had seen scans of some the pages, but never a complete version. Needless to say, I was elated when I found a copy in one of the manga-stalls of Tokyo. The old woman behind the counter gave me a toothless grin and grabbed my hand. «This time you will not trick me, warrior!» she said in perfect English and recited the ancient spell of shapeshifting.

I am a girl now, a Japanese girl named Miss Keiko, trying hard to get accustomed to the unwritten laws of the local culture. She poses as my mother, the witch, feeding me in return for absolute obedience. She is planning my marriage to the son of the boss of one of the national high tech companies. She wants him to become the Prime Minister of Japan. And this time I do not have the skills of the warrior. I cannot even make a decent cup of tea!
