Intro

Verse 1

The great unknown Our cornerstone
The one who spoke the world into motion

Our anchor holds Within your hope
The Lord of heaven living in us

Chorus

Holy fire, our desire
For more of you
Holy thunder, pull us under
Into more of you

Verse 2

We're standing now On holy ground
For only you have paid our ransom
Forever free With you we breathe
Your grace has now become our anthem

Bridge

Faithful, Faithful, You are true

Faithful, Faithful, None like you

End:
