"This is the story of Tom Sawyer told in a more simple way for children to understand...it's very clever."
—Youth Services Book Review

...he rustled up his bravery
and told the truth...
It sure felt good to be brave.

Dan Gibson is originally from Detroit, but relocated to Tennessee to pursue his passion for creative arts and other exciting new ventures. In addition to actively developing his talent on guitar, Dan has written countless stories. This is his first published children's book, but Dan's work shines through a number of other mediums. Dan lives in Franklin, Tennessee, with his wife and two dogs. You can usually find him around town searching for inspiration for his next great idea.

Asha Pearse has a style all her own. Her work is a collaboration of quirky hand-drawn and painted elements and cutout printed textures, brought together in a layered collage. She likes to sneak her old ginger cat Aubrey into her pictures. Asha lives in Oxfordshire, where she drinks a lot of tea and eats too much cake. She also really likes robots and stars.
