GAME RULES : BASE GAME

The game is a 6x5 reel, cluster-pays game. Any 4 or more identical symbols that appear connected on the reels will award a win and will be removed from the game screen. New symbols will then fall from above into the empty spaces. The progress bar is located to the right of the reels. It is split into 10 levels. Each win will fill up the progress bar on the right of the reel by 1 level. Consecutive wins will gradually fill up the progress bar and the free spins will trigger when it is fully filled up.

GAME FEATURE : COMBOS

This game features a combo multiplier system, which corresponds to the number of consecutive symbol wins. The number of combos increase when winning symbols are removed from the reels. The combo bonus bet multiplier is set according to the number of combos scored. The combo bonus bet multiplier is awarded in addition to the payout triggered by any symbol wins. The combo and combo bonus will be reset if there are no more wins on a spin.

COMBO BONUS

Combo	Bet multiplier
100+	5 x
90 - 99	3 x
70 - 89	2.5 x
50 - 69	2 x
30 - 49	1.5 x
17 - 29	1 x
5 - 16	0.5 x

GAME FEATURE : FREE SPINS

FREE SPINS are awarded after 10 or more consecutive symbol wins in the base game. There are 2 types of free spin stages, and the stage that is played is randomly decided when player enters the free spins feature. Players are initially awarded 3 FREE SPINS if they enter the SUNSET STAGE FREE SPIN FEATURE, and 5 FREE SPINS if they enter the MIDNIGHT STAGE FREE SPIN FEATURE. One additional free spin is awarded when the progress meter on the right of the reel is filled during either of these features. The number of combos is carried over and will not reset until the end of the FREE SPINS FEATURE.

GAME FEATURE : SUPER SECRET STAGE

The SUPER SECRET STAGE can be triggered randomly in the SUNSET STAGE or MIDNIGHT STAGE if the progress bar is filled, or may randomly trigger during the base game. During this feature, the only symbols to appear on the reels during the initial spin are the HIGH SYMBOLS and WILD SYMBOLS. There is no progress bar in the SUPER SECRET STAGE. Players are awarded 1 FREE SPIN inside the SUPER SECRET STAGE.

GAME FEATURE : DIVA FEATURE

The DIVA feature can be triggered during the base game, sunset stage, midnight stage or super secret stage when any high symbols of the same type appear on a winning combination. The character that appears will correspond to the winning high symbol in that combination. Each character has 3 levels, and the level is based on the number of winning combinations for that corresponding high symbol on that spin.

Ren`s Rank Up – The character will convert 1, 2 or 3 types of low symbol on the game screen to 1 type of high symbol for that spin. The number of types of low symbol that will be converted into high symbols will correspond to the level.

Lune`s Burst – The character will remove 1, 2 or 3 rows of symbols on the game screen, causing a WILD or high symbol to fall into the spaces created. The number of rows that will be removed from the game screen will correspond to the level.

Rin`s Wild – The character will convert symbols on the game screen to WILD symbols. Depending on the level, 2, 4 or 6 symbols will be converted to WILD symbols.

In addition, there is a chance all 3 characters can appear at the same time, if all 3 character trigger criteria are met on the same spin. This is called the MEGA WILD SISTERS feature. They will add a giant 2x2, 3x3, or 4x4 size WILD symbol on to the game screen. The size of the giant WILD symbol that will appear corresponds to the level.
