In the last quarter, the company reported \$0.50 earnings per share beating analysts' consensus estimate of \$0.49. DKS is up 15.3% over the last month and up 19.2% over the last 3 months. The stock price is up 2.9% over the last year.

Last 3 Quarters – “Jump Zone” Move: -18.11%, -5.62%, 10.84%
 Consensus Estimates: \$0.68(whisper) \$0.69(estimate) \$0.68(wall street)

StockJumpers trajectory reveals a positive reaction to the release with better than expected performance going forward and a resulting up in price. The jump zone may not be huge – its straddle priced for a 6.3% move. The concern with this trade is that the stock is at annual highs, (perhaps overbought) and even the slightest negative news would cause it to tumble. Our data suggests a good report and we are long for the event, but members may want to wait on the sidelines until the numbers are announced.
