

 Liu  
**Cork** ( Natural Spray-On  
Cork Protection )

**“Eco -friendly technology and tradition to protect your property, your surroundings and your quality of life”**

All of us need to inhabit homes and workspaces that provide us with a good energy performance to help protect our planet and improve our quality of life.

### **OUR GOAL**

“To live in a world where nature, technology and human warmth coexist in harmony”

### **OUR PROPOSAL TO YOU**

To improve your living conditions at home or at work using a technically superior method that is both environmentally- and people-friendly.

### **WHAT WE OFFER**

- Sale of KLIUCORK cladding for approved companies and professionals
- Building renovations and new build finishes with KLIUCORK cladding for companies and private individuals
- Industrial applications of KLIUCORK adapted to specific products and/or services

### **How do we do it?**

Our values guide us so we can offer you the very best:

**Teamwork**

**Respect for the planet**

**Belief in people**

**Commitment**

**Attention to detail**

**Enthusiasm**

**KLIUCORK is a top quality eco-friendly cladding manufactured by Kliu Solutions SL, whose main components are cork granules sourced from cork oak trees, plant resins and organic pigments.**

### **Solutions and improvements**

Waterproofing, damp patches, thermal insulation, sound insulation, encapsulation of asbestos and saltpetre problems.

---

### **Recommended for application to most surfaces**

KLIUCORK is extremely adherent to the vast majority of materials, including all kinds of mortar, concrete, ceramic tiles, metals, galvanized steel, aluminium, wood, glass, PVC, expanded polyurethane, asphalt membrane, sheet metal and asbestos, amongst others. Consequently, it can be applied to walls, façades, roofs, ceilings, slippery floors, paving, swimming pools, metal and wood surfaces, amongst others.

- Waterproofing of all kinds of roofs (accessible flat roofs, inner courtyards, inverted roofs, decking, etc.), improving the energy efficiency of your property or industrial warehouse.
  - Solving damp patches caused by condensation or capillarity.
  - Cladding of façades (decorating them as well as providing thermal insulation).
  - Decoration of interiors.
  - Cladding of swimming pools and landscaping.
- 

### **Product**

Range: multicolour

Format: 12 kg containers

Product appearance: viscous

Density: 0.5 g/cm<sup>3</sup>

Thermal conductivity:  $\lambda = 0.038 \text{ Kcal / h}^\circ\text{C m}$

Fire performance: Category I

Non-slip, breathable, water- and saltpetre-resistant

---

### **Product application**

The product should be applied by approved companies or professionals. The area where it is to be applied should be clean, dry and free from dust or grease.

---

### **Product warranty**

KliuSolutions S.L., the manufacturer of KLIUCORK, offers a 10-year warranty.
